

FACTS ABOUT NTEX

NTEX is a Swedish, medium sized, privately held, forwarding agent founded in 2003. NTEX provides tailor-made transport and logistics solutions for road-, air-, sea freight worldwide and third part logistics

The company have 300 employees stationed on 15 offices in Sweden, Norway, England, Germany, Poland and the Baltic states with a turnover of 140M€

NTEX serves 4 000 customers in varying sizes, annually handles around 250 000 consignments

NTEX STANDS FOR

ENVIRONMENT & QUALITY

NTEX is conscious of humans everyday lives. Therefore they actively contribute to a healthy environment and economic and social welfare

The company is certified in both ISO 14001:2015 and ISO 9001:2015

Security is important for NTEX, therefore the trailers are equipped with GPS tracking and you will never face the company's trailers in unattended locations

Every year its suppliers are evaluated in order to maintain the quality and reporting CO2 emissions to protect the environment

IT SOLUTIONS AND STATISTICS

To keep up with the technical developments NTEX uses several types of EDI solutions including customized solutions

By using EDI solutions there is a possibility to track and trace. It means that you as a customer always can follow the status of your shipments

NTEX offers various types of statistics regarding your shipments that will make your daily business easier

ROAD TRANSPORT

NTEX offers high quality, tailor-made special road transports after the customer's needs in Europe

The company performs transport and logistics solutions for all kinds of consignments, ranging from normal transports to time-pressed express delivery and dangerous goods in competitive lead times

NTEX trailer park includes 650 own trailers, all of them equipped with GPS tracking to secure the freight forwarding

AIR FREIGHT

NTEX air freight department team has the expertise needed to provide high-quality deliveries to final destination.

There is no ready-made template to use, each shipment is tailored to the customer's specific needs

There is an international agent network which makes it possible to arrange shipments to and from all airports worldwide. All types of goods are handled and there is also a lot of experience with dangerous goods

NTEX is IATA and AEO certified as well as regulated agent for aviation

SEA FREIGHT

NTEX sea freight department team handles all types of goods for shipments worldwide, to and from all continents

They combining local commitment and global agent network to offer the same expertise at both departure and arrival

To short lead times NTEX offers a special air/sea solution from Far East which means a combination of air and sea transport

WAREHOUSING

NTEX provides storage and distribution of your goods. If you as a customer has a lot of suppliers all over the world. NTEX take care of the goods, store it and then deliver it in one trailer instead of many which save much time

NTEX can store your untaxed goods which means that you will not be allowed to pay tax and VAT during storage. It gives you increased flexibility, reduced bonded capital and improved profitability.

There are also companies who do not have their own storage place and use NTEX storage service in full

*Continuous quality
